

Fallin - Site Options

Local Development Plan 3 - Site Options Consultation

1. Summary of Site Options

Site options currently being considered for inclusion in the proposed plan

An overview of the sites being considered for inclusion in [Stirling's next Local Development Plan](#) (LDP3), as they relate to Polmaise Community Council area, is provided in the table and map below.

Site Reference	Source	Site Location	Promoted Use(s)	Summary of Promoted Use
FLN-01	Call for Sites Submission	Coxpow Farm, Fallin	Residential	Greenfield site promoted for residential use and is estimated at this stage to have capacity for around 4-30 homes .
FLN-02	LDP2 Allocated Site	Alton of Bandeath Fram, Fallin	Residential	This greenfield site is promoted for residential development and is currently estimated to have capacity for approximately 400 new homes, consistent with the existing allocation in the Stirling Local Development Plan (reference H077). The site requires reappraisal, as it has not progressed towards delivery. However, progress is now being made, with Planning Permission in Principle (20/00436/PPP) having been granted (November 2022) and time for implementation being 18 November 2027.

Site Reference	Source	Site Location	Promoted Use(s)	Summary of Promoted Use
FLN-03	Call for Sites Submission	Lower Polmaise, near Fallin	Commercial, general industry and renewable energy	Greenfield site promoted for commercial/employment use. Site capacity is still be determined.
FLN-04	LDP2 Allocated Site	Falcon House, Main Street, Fallin	Residential	<p>This greenfield site is allocated in the current Stirling Local Development Plan for residential use (reference H158), with an indicative capacity of 24 new homes, consistent with the existing allocation in the Stirling Local Development Plan.</p> <p>The site requires reappraisal as it has not progressed toward delivery. This is reflected by its 'constrained' status in the 2025 Housing Land Audit (Ref: SC267), meaning it is not currently programmed for delivery.</p>

2. Fallin Local Place Plan

Summary of Local Place Plan provisions relevant to the assessment of site options

The [Fallin Local Place Plan](#) includes the following general provisions relevant to the site options presented here for the Fallin Community Council area (note: this is not an exhaustive list):

General requirements

- **Housing and land use:** There is a need for additional affordable housing. It is also implied that new housing development should contribute to improving Fallin's socio-economic conditions, including enhancements to public transport and public services (Page 12).
- **New development:** Support is identified for new housing and local commercial space to provide a more varied tenure mix, including particular needs housing and affordable housing.
- **Open space:** New and improved areas of open space are sought, with an emphasis on maximising connectivity between these spaces.

Other matters

- **Traffic:** Traffic volumes on Main Street are a key concern for the community (Page 13).
- **Public transport:** There is significant public dissatisfaction with the current level of public transport provision (Page 14).
- **Parking:** On-street parking is also identified as a problem within the village (Page 14).
- **Village centre:** The village is noted as lacking a thriving High Street (Page 14).

When considering each site for potential future development, the provisions outlined above will be taken into account. These considerations may inform the key site requirements for any future development, should the promoted uses, or any alternative suitable uses, be supported for inclusion in the Proposed Plan.

FALLIN

LOCAL PLACE PLAN

2025 - 2035

3. Individual Site Options

Site options & key considerations for the initial stage of the site assessment process

In this section, you will find two summary tables, along with the related maps, covering the sites currently being considered for inclusion in the Proposed Plan.

As the maps included here are illustrative, the information should be read alongside the StoryMap - [Fallin - Site Options](#), where the site options and relevant data layers can be explored in more detail.

In addition, a Stirling-wide map showing all site options currently under consideration can be viewed here - [LDP3 Proposed Plan Site Options Map](#).

The tables provided below give an overview of whether the key considerations apply to each site and are presented as follows:

- **Table 1 and associated mapping – Environment, Landscape and Nature Considerations:**
Show the site options plotted against the relevant data sources for this theme, including flood risk, green belt areas, national and local landscape and biodiversity designations, and the presence of trees and woodland.
- **Table 2 and associated mapping – Historic Environment and Cultural Heritage:**
Show the site options plotted against the relevant data sources for this theme, including listed buildings, conservation areas, scheduled monuments, battlefields, and designed landscapes.

The considerations presented are derived from Stage 1 of the Site Appraisal Methodology, which was approved as part of the Evidence Report process. They therefore play an important role assessing sites for inclusion in the Proposed Plan and, where this is the case, what mitigation might be required to address any site-specific issues.

When the tables, based on the mapped information, below indicate that a consideration applies to a site (shown as 'yes'), this should not be interpreted as meaning the site will be rejected. In most cases, it simply highlights where further detailed assessment may be required at later stages of the site assessment process, potentially involving additional information or specialist input from relevant services or agencies.

Similarly, where a table indicates that no considerations apply to a site (shown as 'no'), this should not be taken to mean that the site will automatically be supported for inclusion in the Proposed Plan.

As the site assessment process is still at an early stage, no conclusions can yet be drawn about which sites will be selected for inclusion in the Proposed Plan. This is because several important matters have not yet been assessed and therefore do not appear in the considerations presented below.

These outstanding matters include assessments of infrastructure capacity, such as the individual and cumulative impacts of development on:

- the road network
- school rolls
- GP practices and other health services

They also include accessibility and connectivity considerations, meaning factors such as:

- how well a site is served by active travel routes
- whether local services and facilities can be accessed safely and conveniently on walking or wheeling, by bicycle, or by public transport

These matters will be considered in the later stages of the site assessment process, alongside the comments received through this consultation once the consultation period has closed.

Key Considerations - Environment, Landscape and Nature

Table 1. below confirming (Yes/No) whether the key considerations relating to the environment, landscape, and nature apply to the site options within the Fallin Community Council area.

Site Option References	Key Considerations					
	Environment, Landscape and Nature Considerations					
	a. Flood risk: Is the site within or close to an area at risk of flooding?	b. Green Belt: Is the site within a designated green belt?	c. Nationally Designated Sites: Is the site within, or adjacent to, a designated area protected for habitats or species?	d. Locally Designated Sites: Is the site within, or adjacent to, an area designated for its landscape, biodiversity, or geodiversity value?	e. Green Network: Does the site form part of a green corridor or is it used for formal play, sport, or recreation?	f. Trees & woodland: Are there trees or woodland areas within or close to the site?
FLN-01	Yes	Yes	No	No	No	No
FLN-02	Yes	No	No	No	No	Yes
FLN-03	Yes	Yes	No	No	No	Yes
FLN-04	Yes	No	No	No	No	Yes

Maps 1-4 below show the site options plotted against the relevant data sources for each consideration identified in the table above.

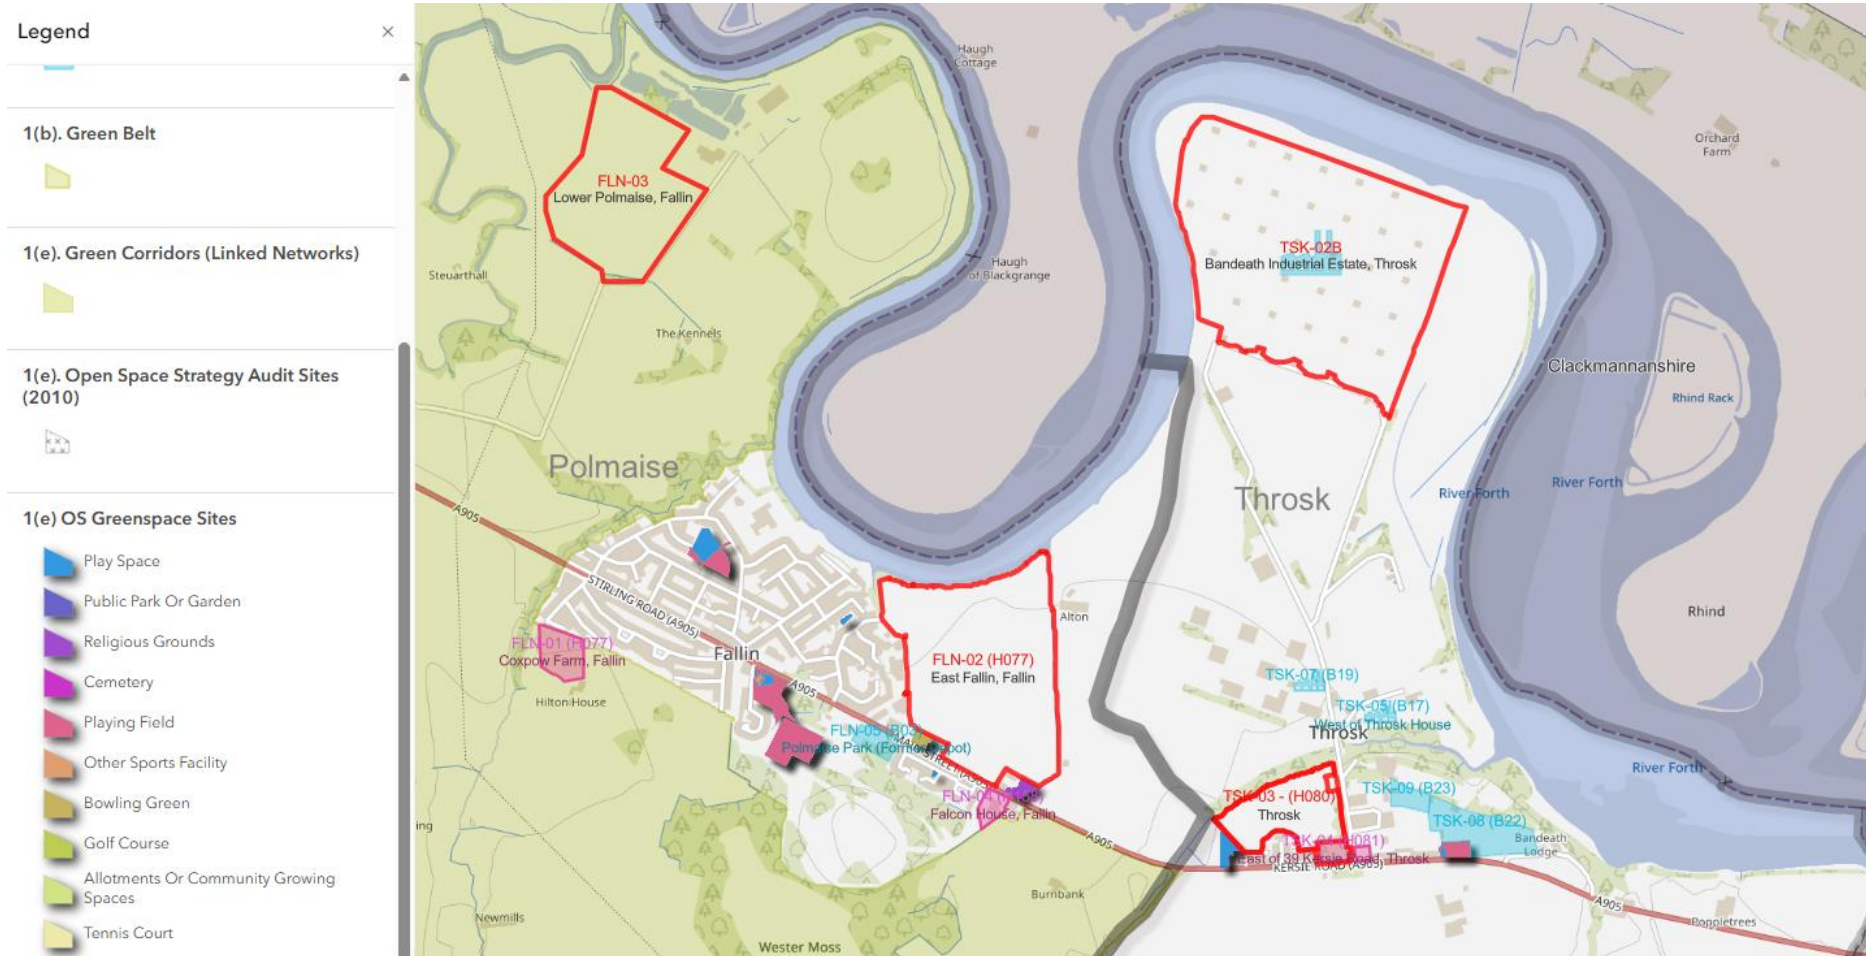

Map 1 - Environmental, Landscape, Nature Considerations

Site options in relation to flood risk areas

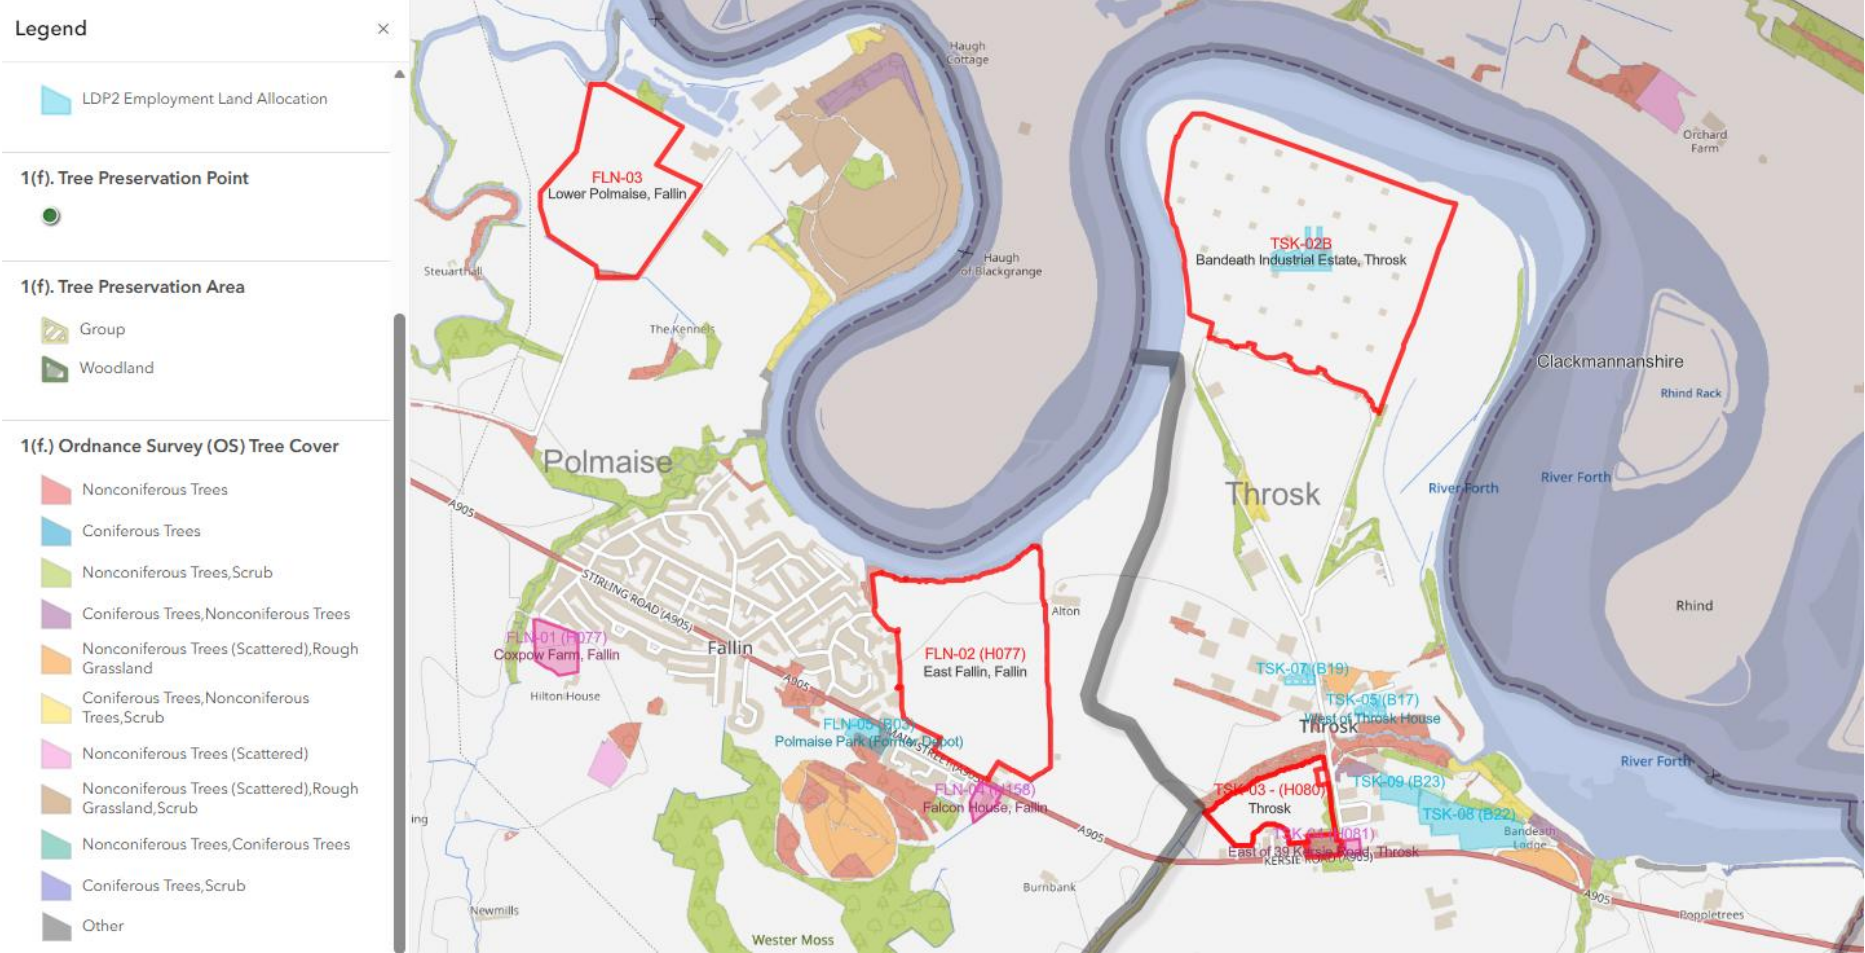

Map 2 - Environmental, Landscape, Nature Considerations

Site Options in relation to Green Belt areas, Green Corridors and Open Space

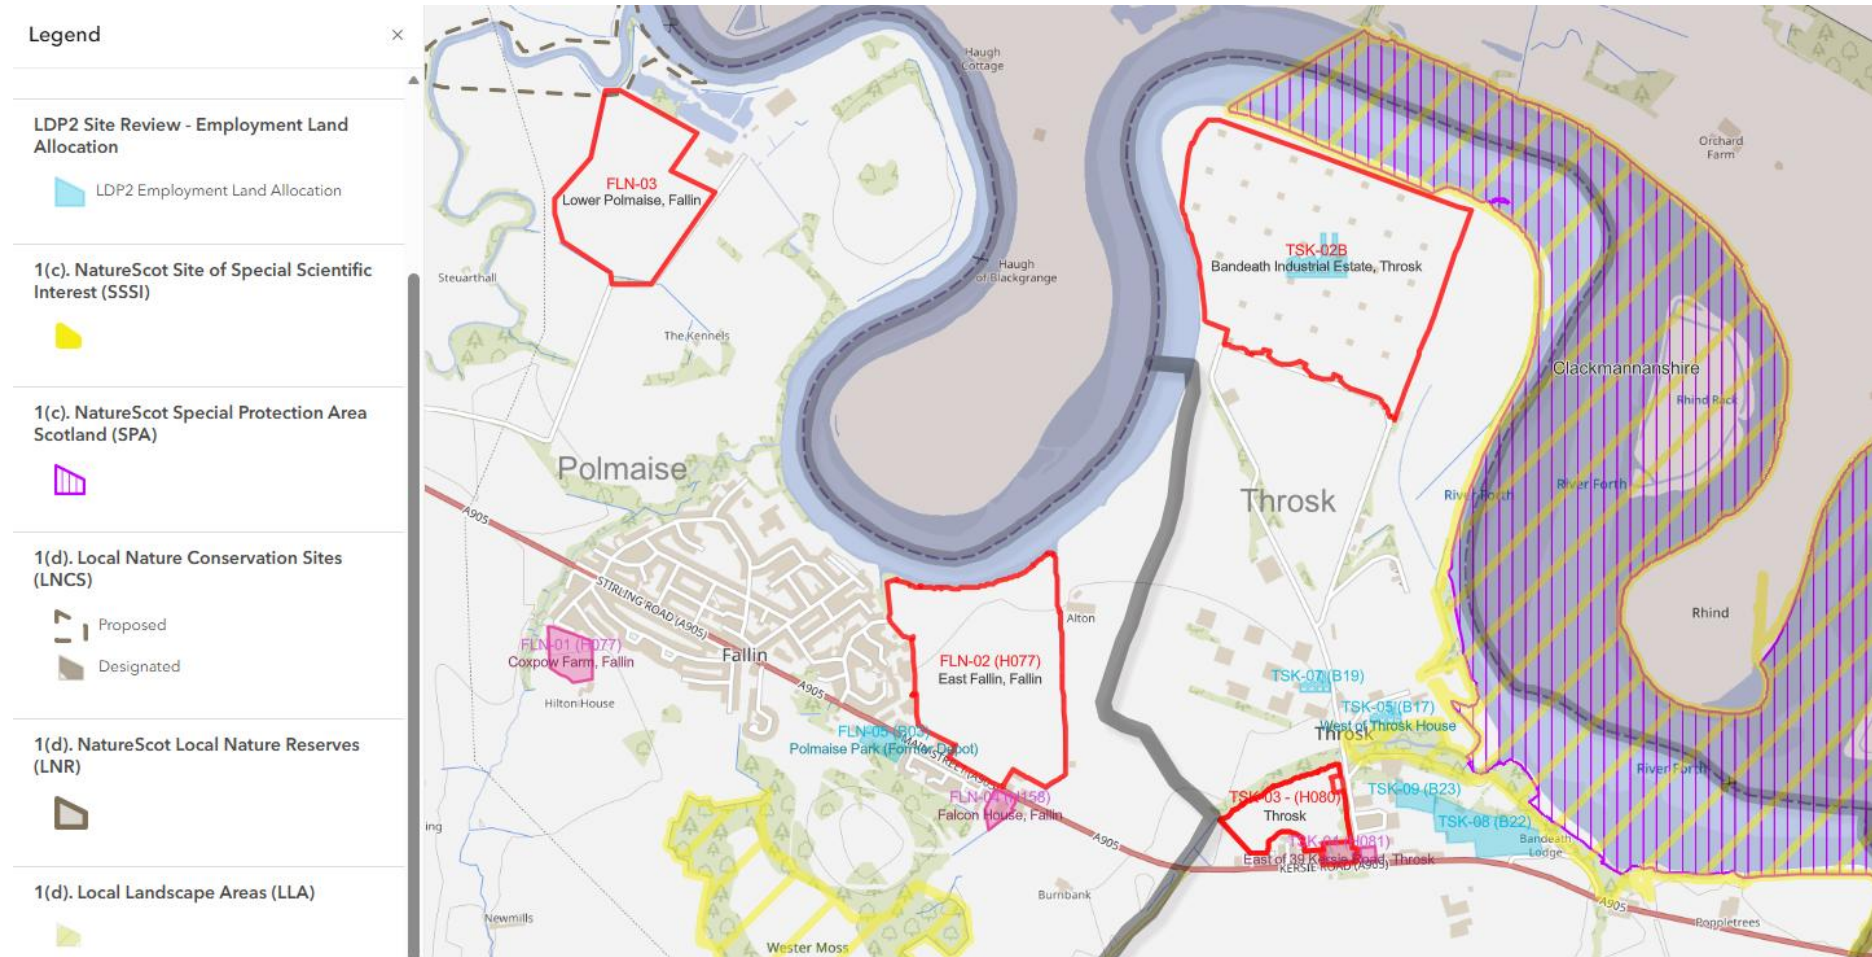

Map 3 - Environmental, Landscape, Nature Considerations

Site Options in relation to Trees & Woodland

Map 4 - Environmental, Landscape, Nature Considerations

Site Options in relation to National and Local Designations (landscape, biodiversity and geodiversity)

Key Considerations – Historic Environment and Cultural Heritage

Table 2. below confirming (Yes/No) whether the key considerations relating to the historic environment and cultural heritage apply to the site options within the Fallin Community Council area.

Site Option Refs	Key Considerations				
	Heritage Considerations				
	a. Listed Buildings: Does the site contain, or is it situated close to, any listed buildings?	b. Conservation Area: Is the site within, or situated close to, a conservation area?	c. Battlefields: Is the site within, or situated close to, a battlefield area?	d. Scheduled Monument: Is the site within, or situated close to, a scheduled monument?	e. Designed Landscape: Is the site within, or situated close to, a designed landscape?
FLN-01	Yes	No	No	No	No
FLN-02	No	No	No	No	No
FLN-03	No	No	No	No	No
FLN-04	No	No	No	No	No

The map below shows the site options plotted against the relevant data sources for each consideration identified in the table above.
